

It Was Always So Easy (to Find An Unhappy Woman)

Moe Bandy

I drove through the park and I searched all the bars
Where I made out with love too many times

It was always so easy to find an unhappy woman
Till I started looking for mine
Some beer drinking devil is holding my angel
And I know what he'll do if he's my kind
It was always so easy to find an unhappy woman
'Till I started looking for mine

The note on the door said I warned you before
What I'd do if you cheated one more time.
