

# She's Not Really Cheatin' (she's Just Gettin' Even)

Moe Bandy

Not a hair out of place  
She makes up her face  
Then she makes up a lie

She's dressed fit to kill  
And it takes all his will  
Not to cry

She don't know that he knows  
And he won't let it show  
As she's leavin'

Ooh, she's not really cheatin'  
She's just gettin' even

And he's going through hell  
But he knows to well it's deserved  
She telling all the same lies  
The same alibis that she's heard  
Two wrongs don't make it right  
But he knows tonight she's believing  
That's she's not really cheatin'  
She's just gettin' even.

She's never been untrue  
So this is all new  
But she's catchin' on fast

Her cheatin' is fair  
Cause he's done his share  
In the past

He has to understand  
Cause he's an old hand  
At this even

So she's not really cheatin'  
She's just gettin' even

And he's going through hell  
But he knows to well it's deserved  
She telling all the same lies  
The same alibis that she's heard  
Two wrongs don't make it right  
But he knows tonight  
She's believing  
That's she's not really cheatin'  
She's just gettin even
