

## Then You Can Let Me Go (out Of Your Mind)

Moe Bandy

Every time you touch me you're touching someone else  
Your goodbye is just a kiss away  
Although we live together I'm in love all by myself  
I'm not in your heart just in your way.

Let me hold you close before you leave me  
I know it's over but you know I tried  
Let me feel your love running through me  
Then you can let me go out of your mind.

Out of love you came here out of habit you stay here  
And soon you'll be out of sight  
Your eyes are saying all the things you've tried so hard to say  
And I know that this will be our last night.

Let me hold you close before you leave me  
I know it's over but you know I tried  
Let me feel your love running through me  
Then you can let me go out of your mind.

Then you can let me go out of your mind...
