

# What Happened To Our Love

**Moe Bandy**

Last night I wandered through my mind to the place I'd love once  
live

When I got to your sweet love my eyes began to fill  
Then I tried to remember why love turned out so sad  
But all I could remember was the good times that we had

What happened to our love the one we were proud of  
I can't recall one single drop of rain  
What happened to our love the one we were proud of  
I'd give the world if we could start over again

Hear you're so happy now with a new love that you've found  
Me I'm making out all right I do some traveling round  
Well I found a lotta new friends but there's one thing I can't  
find  
The answer to the question that's always in my mind

What happened to our love  
I'd give the world if we could start over again
