

What Happened To Our Love

Moe Bandy

Last night I wandered through my mind to the place I'd love once
live

When I got to your sweet love my eyes began to fill
Then I tried to remember why love turned out so sad
But all I could remember was the good times that we had

What happened to our love the one we were proud of
I can't recall one single drop of rain
What happened to our love the one we were proud of
I'd give the world if we could start over again

Hear you're so happy now with a new love that you've found
Me I'm making out all right I do some traveling round
Well I found a lotta new friends but there's one thing I can't
find
The answer to the question that's always in my mind

What happened to our love
I'd give the world if we could start over again
