

# Black Widow

Mötley Crüe

In her eyes  
You're the night's desire  
You're the one on her lips  
She drink your love  
In the shadow of blood  
It's a deadly, deadly kiss  
She'll drink your love

All in her prey  
You're just a man  
In the web of delight

All you can do  
Cause you've lost  
Is close your eyes

In this theatre of pain  
Your life  
Love and hate's the same  
To the black widow  
To the black widow  
To the black widow

I need a love  
I need a love  
I need another black widow  
I need a love  
I need a love  
I need another black widow

Love and hate's the same  
In this theatre of pain  
Well among kings and queens  
Love and hate's the same  
To the black widow
