## **Red Hot**

**Mötley Crüe** 

Fight for the black shark See what evil brings Can't you see we're out for blood Love from a shotgun License to kill Can't you see we're out for blood

The kids scream in fright, through the night Loving everybit with delight And we blow out our minds with your truth And together we stand for the youth

Red hor, red hot To the top, we are Red hot

Shout at the devil We've laughed at your wars Can't you see we're out for blood Run with the pack, now Always ask for more Can't you see we're out for blood .....
