

## Devil Rides

**Mogwai**

Where evil dwells, I hide my face  
In empty rooms, the ghostly chains  
Did you miss me? I seemed so sure  
Today seems longer, now you're gone  
The devil rides right next to me  
My broken thoughts, my last relief  
Did you miss me? I seemed so sure  
Today seems longer, now you're gone  
Did you miss me? I seemed so sure  
Today seems longer, now you're gone  
Try as I might, i'll never understand  
What's inside the hearts of strangers
