

# End Of The Day

Mohombi

Still alive but it's hard to breathe  
I thought it belongs to the world  
But not anymore

Still believe in broken dreams  
Peace and love are running over  
I guess I believe at the end of the day

Never think we'll be okay  
And if I'm back  
Then I know the end is not today  
Then I know the end is not today

Wanna live for eternity  
The life is just a blink of an eye  
So why don't we fight?

The day we will join our energy  
Darkness gonna turn into light  
Guess I believe

At the end of the day, never repeat it will be okay  
So if I'll be back,  
Then I know the end is not today  
Then I know the end is not today  
Then I know the end is not today  
Then I know the end is not today

At the end of the day, never repeat it will be okay  
So if I'll be back,  
Then I know the end is not today  
Then I know the end is not today
