

Lose It

Mohombi

Like a champion, be a champion
When we lose it, aha!
We convince the...
Keep running, get out of way!
You play with fire, fire, ay, ay, aha
Tomorrow might be too late, aha
Tonight we're in the game,
Somebody pass that fire, ay, ay, ay!

Chorus:

If you want to get it started, you can take it on the floor!
(Start play it, let's get cracking
Get it on the floor, let's get cracking!)

If you wanna get it brighter, you should let me take it home
(You got that look in your eyes,
Baby, get in the whip and let's ride!)

Stand on that ... if you can't control yourself
We pop them bottles like we just wanna fall
Like a champion, be a champion
When we lose it, lose it,
Let's lose it!

Lose people stand in the line,
My people get out of line, aha!
We got that power, power, ay, ay, ay, aha!
Come down if you want to spend,
Some time on top of the game, aha
Get in the rollercoaster, ay, ay, ay!

Chorus:

If you want to get it started, you can take it on the floor!
(Start play it, let's get cracking
Get it on the floor, let's get cracking!)

If you wanna get it brighter, you should let me take it home
(You got that look in your eyes,
Baby, get in the whip and let's ride!)

Stand on that ... if you can't control yourself
We pop them bottles like we just wanna fall
Like a champion, be a champion
When we lose it, lose it,
Let's lose it!

Stop killing it, girl, just stop killing it!
Your .. are cold, and I'm feeling it!
You let me in, these booty bouncing my way
Like the realest niggas telling these ain't sideways!
Black artist, Ciroc and I'm spaced
Enough, look at a ... nigga for days.
Control for tonight, is how we do it
Start acting so calm, girl,
Lose it!

Chorus:

If you want to get it started, you can take it on the floor!
(Start play it, let's get cracking
Get it on the floor, let's get cracking!)

If you wanna get it brighter, you should let me take it home

(You got that look in your eyes,
Baby, get in the whip and let's ride!)
Stand on that ... if you can't control yourself
We pop them bottles like we just wanna fall
Like a champion, be a champion
When we lose it, lose it,
Let's lose it!

All the ladies in the place right now
Get on the floor and get down!
D-boys you got that dream,
Through it in the air, make it rain on the team
Through it up now, through it up, now!
Through it up now, through it up, now!
Let's go!

Chorus:
Stand on that ... if you can't control yourself
We pop them bottles like we just wanna fall
Like a champion, be a champion
When we lose it, lose it,
Let's lose it!
