

Save Me

Mohombi

Been here before
I keep them all but not so close
Love is what Ive lost the most
Save me, baby

Im in a dream
Tell me why is hard to breathe
Every time I fall too deep
Save me, baby

Ive had it all trapped in these fancy walls
So this is why I feel alone
Im holdin on
I wait for you to come along

And save me, save me
Come save me, save me, baby
And save me, save me this time
Save me tonight
Save me tonight
Save me tonight

A knock on my door
Youre the one Im waiting for
Grab my hand and take me home
Save me, baby

Said I take it away
But everywhere I see your face
And out my pieces into play
Save me, baby

Ive had it all trapped in these fancy walls
So this is why I feel alone
Im holdin on
I wait for you to come along

And save me, save me
Come save me, save me, baby
And save me, save me this time
Save me tonight
Save me tonight
Save me tonight

Ive been there for
I keep them all but not so close
Love is what I lost the most
Save me, baby
