

# Believe Me

Moist

Believe me, touched by God, touched by you  
You know I never asked you to  
Believe in me, it's all I can do, things you never said

And wanting you to reach out from the dark  
To wake up from the cold  
And wanting you is all I can do, things you never said

Believe me, did you ever try?  
Believe me, keep it all to yourself  
Believe me, I never wanted to die

I'll take the note the words that say I'm weak  
That show I should have died crumpled in the fire  
I'll take the note its all I can do things you never said

Believe me, did you ever try?  
Believe me, keep it all to yourself  
Believe me, I never wanted to die

So I'm burning up your pictures, lay you in this shallow grave  
So I'm washing clean your body for the promises I never made  
I'm burning up your pictures, still my love remains the same
