

Hard To Miss You

Mojave 3

Wish that I could make you laugh
And make you feel whole again
I cannot lay here on this line
Wish I could see you now
Standing there without a care
I guess, you'd make me smile
It's hard to miss you
It's hard to miss you
It's hard to miss you
It's hard to miss you
It's hard to miss you
It's hard to miss you
It's hard
They say the world's a smaller place
But they don't say it to your face
It's a pretty stupid thing to say
I don't feel it in my space
I don't feel you in my space
I just want to see you in my space
It's hard to miss you
It's hard to miss you
It's hard to miss you
It's hard to miss you
It's hard to miss you
Hard to miss you
It's hard to miss you
