

# Heaven

Moke

Heaven call my name  
Oh take away this pain

Everybody wants to know how  
To face the fear in their heart  
Give me something to believe in  
Then I'll know where to start

There's a bond between us  
I feel its strength in my hands  
And stretching beyond our boundaries  
This is not what I'd planned

Hate the games we play  
For me there's nothing more left to lose  
Don't get me wrong  
This feeling's so strong

Heaven call my name  
Oh take away this pain

The harder I try  
The further I fall  
There's just too much weight  
Can't carry it all  
I'm wasting my time  
Cause I feel like a fool  
I'm just sorry I lied

Hate the games we play  
For me there's nothing more left to lose  
Don't get me wrong  
This feeling's so strong

Heaven call my name  
Oh take away this pain

Leaving all that I've ever known  
Praying for something  
Just hoping for someone  
To show me where I can go  
Leaving is painless  
But leaving the strangest  
Feelings behind for you

Heaven call my name  
Oh take away this pain  
In everything I've ever done  
Yeah, I, I've known it all along  
And now my race is run

Heaven call my name
