

Thinking about the past now
thinking of you and me
always together playing
and kissin behind the tree
round and round , hand in hand
walking down the street
singinthe songs of love you liked !
so im writing this song to say

Ti voglio ancora bene sai
with all my heart , with all my soul
restiamo ancora insiene noi
I will never lie, i wont make you cry

Im writing this song for you my baby
hoping that youll come by
and i would like to kiss your tender lips
im dreaming of you everynight
im searching in my self to salve
this point of loveliness
but now i know you find my love
well stay together again

Ti voglio ancora bene sai
with all my heart , with all my soul
restiamo ancora insiene noi
I will never lie, i wont make you cry

I believe in our love
i have a dream
ill promisse you
all my life...
i believe in our love
and now youll see
ill care for you
all the time

Ti voglio ancora bene sai
with all my heart , with all my soul
restiamo ancora insiene noi
I will never lie, i wont make you cry
