

Tell Me

Molella

There wouldn't be tomorrow
if you are not here close to me
my life'll be full of sorrow
and I will miss you endlessly

I dream of you
the fog is over my desires
and I move
I see your eyes and every night
I dream of you inside my mind

Chorus

tell me where are you
I'll find you and I promise will be true
tell me where are you
I know my life is nothing without you

tell me now
tell me now
where are you...

tell me now
tell me now
is there a chance with you

the daylight comes to my window
but everyday's dark without you
I remember when we were together
the sun always shone and we were one
