

# Good Smoke And Whiskey

Molly Hatchet

Once we had each other  
We had security  
Anything she wanted  
But she wanted to be free  
Thought I had everything in hand  
Instead she's taken everything from me.

Good smoke and whiskey is all that's left in my life  
Good smoke and whiskey  
Good smoke and whiskey is all that's left in my life  
Good smoke and whiskey

I said I loved her  
She just laughed in my face  
I thought I had her  
But she put me in my place  
She got the car and the color t.v  
Now she's drivin' me to bankruptcy.

Good smoke and whiskey is all that's left in my life  
Good smoke and whiskey  
Good smoke and whiskey is all that's left in my life  
Good smoke and whiskey

A million used to be that  
I'm gonna be movin' movin' movin' movin' movin' tonight  
Nothing left to do  
Drink myself a million miles away from you.

Ooh yes sir  
Good smoke and whiskey  
Runnin' around my brain  
Good smoke and whiskey  
Killin' all that woman pain  
With a smile and a twist of the knife  
She took my heart and a part of my life

Good smoke and whiskey is all that's left in my life  
Good smoke and whiskey  
Good smoke and whiskey is all that's left in my life  
Good smoke and whiskey

Good smoke and whiskey  
Good smoke and whiskey  
Good smoke and whiskey  
Good smoke and whiskey  
Good smoke and whiskey  
Oh yea
