

Nobody Walks On Me

Molly Hatchet

Don't come at me with your stand, fight or die
Are you gonna feel it right between your eyes
Last man that crossed me they put him in the ground
Now get on out of here, don't need ya hangin' round

Nobody, nobody
Walks on me
If you get in my way, well you'll pay the price
If you ain't got nothin' to say take some advice
Last man to cross me yeah they took him on down
Was my buddy my .44 kept me around

Nobody, nobody
Walks on me
Did you ever feel look like a target waitin' to be hit?
I never thought I'd feel this way lord I'll admit
You can take my money, you can take my time
You can take out both eyes that still don't mean I'm blind.

Nobody, nobody
Walks on me
