

## Let's Waste Some Time

Molly Johnson

Once upon a time my heart was still  
I would walk these streets and end up nowhere

Once upon a dream you were my thrill  
I could never think of love without you

My life was so complicated  
Playing cool's so overrated  
All we got to do is spend some time

We could make a quiet exit  
Slip away in a minute  
We'll forget what was maybe just because  
Come on baby lets waste some time

Here beneath the moon and starry sky  
My hearts beating for you like a samba

Let the music play my radio  
We could rescue love with just one kiss oh...

All the things we could uncover  
One thing could lead to another  
Anybody here could plainly see  
We could make a quiet exit  
Slip away in a minute  
We'll forget what was maybe just because  
Come on baby lets waste some time
