

# My Hands Around My Heart

Molly Sandén

I keep my hands around my heart  
I keep my hands around my heart  
I keep my hands around, around my heart

One burn, makes you shy the fire  
One hurt, to give up your desire  
What happened to the girl  
Who used to be so fearless

One fall, is all it takes to ground you  
Hit the wall, always look behind you  
My innocence is gone  
I'm feeling cold and heartless

I thought love  
Was supposed to make me indestructible  
But look at me I'm bruised and begging  
No more no more no  
They said love  
Would truly make me feel indestructible  
But that's the thing that torn me most apart  
Now I keep my hands around my heart

First love, you can't beat the feeling  
First cut, still can't stop the bleeding  
I'd rather stay alone than risk another heart ache

I thought love  
Was supposed to make me indestructible  
But look at me I'm bruised and begging  
No more no more no  
They said love  
Would truly make me feel indestructible  
But that's the thing that torn me most apart  
Now I keep my hands around my heart

I keep my hands around my heart  
I keep my hands around my heart  
I keep my hands around, around my heart

I keep my hands around my heart  
I keep my hands around my heart  
I keep my hands around, around my heart

I thought love  
Was supposed to make me indestructible  
But look at me I'm bruised and begging  
No more no more no  
They said love  
Would truly make me feel indestructible  
But that's the thing that torn me most apart  
Now I keep my hands around my heart

I keep my hands around my heart  
I keep my hands around my heart  
I keep my hands around, around my heart
