

Satellites

Molly Sandén

I am on my ground
you and I, side by side
head up in the clouds
I see my life, flashing by

they call us reckless, but we are free
the night is young, and so are we
and we turn it up 'til we lose it
screaming up to the sky
we're high

tonight we're like satelllites
dancin' on the skyline
way beyond the timeline
tonight we're like satelllites
livin' for the first time
we can do this all night
tonight we're going-
tonight we're going-
tonight we're going-
tonight we're like satelllites

put your heart on mine
face to face, my favourite place
we are over minds
there's no time in space, it's drift away

they call us reckless, but we are free
the night is young, and so are we
and we turn it up 'til we lose it
screaming up to the sky
we're high

tonight we're like satelllites
dancin' on the skyline
way beyond the timeline
tonight we're like satelllites
livin' for the first time
we can do this all night
tonight we're going-
tonight we're going-
tonight we're going-
tonight we're like satelllites

aaaah
there's no words but aaaah aah
aaaah
there's no words but aaaah aah

like satelllites
like satelllites

tonight we're like satelllites
dancin' on the skyline
way beyond our timeline
tonight we're like satelllites
livin' for the first time

we can do this all night
tonight we're going-
tonight we're going-
tonight we're going-
tonight we're like satellites
