

## Boo

Moloko

Do not fear me  
I bring no harm

No one knows where I came from  
I walk on water all day long  
No one knows how far I came  
No one even knows my name

I sometimes sing as I float  
No one ever hears a note  
I sometimes move from place to place  
No one ever sees my face  
I can't touch, I can't weep, I can't taste, I can't sleep  
I appear, I disappear, I reappear, I'm getting near

I'm tired of living in my brain  
I feel no joy, I feel no pain  
I don't live, I just exist  
I need to know the life I missed  
I'm the only one host I'm this town  
I'm the only ghost in the lost and found  
I'm the only one if you look around  
Reappear I'm getting near
