

# Familiar Feeling

Moloko

Nothing can come close  
Nothing can come close  
Nothing can come close

I never doubted it  
What's for you will not pass you by  
I never questioned it  
It was decided before I asked why  
It's all there ever was  
And it's all there ever will be  
How could you have questioned us?  
It's yourself you deceive

Nothing can come close  
To this familiar feeling  
We say it all without  
Ever speaking

Nothing can come close  
To this familiar feeling  
We say it all without  
Ever speaking

Nothing can come close  
To this familiar feeling  
We say it all without  
Ever speaking

Nothing can come close  
To this familiar feeling  
We say it all without

Hush now  
No need to say the words  
At first sight you perfectly heard  
Love in all it's entirety  
Is no less than we deserve

I saw, your face  
Some place  
I felt this feeling before  
Is it deja vu?  
Do I somehow know you?

Nothing can come close  
To this familiar feeling  
We say it all without  
Ever speaking

Nothing can come close  
To this familiar feeling  
We say it all without  
Ever speaking

Nothing can come close  
To this familiar feeling  
We say it all without

Ever speaking

Nothing can come close  
To this familiar feeling  
We say it all without

Nothing can come close  
To this familiar feeling  
We say it all without  
Ever speaking

Nothing can come close  
To this familiar feeling  
We say it all without  
Ever speaking

Nothing can come close

Nothing can come close

Nothing can come close  
To this familiar feeling  
Nothing can come close
