

The Dawn Of Ascendancy

Molotov Solution

Depopulation: The sanitation of humanity.
The condensation of a subservient race
The decline of the individual, the rebirth of tyrannical rule
You have already chosen a life of servitude.
You have no idea what they have in store for you
Invasion of your mind, disguised as entertainment, commercials,
propaganda, and forms of advertisement
Wake up!
Wake up!
Mental conditioning, born into a manufactured grid of production
A new way of life if you can call it that
Would you rather have freedom or security?
Make your choice: Tyranny or Liberty?
Wake up!

Wake the fuck up!
My eyes have been opened to
The corruption and the truth
No longer will I be
Blinded by democracy
My eyes have been opened to
The corruption and the truth
No longer will I be
Blinded by democracy
