

## How To Spot An Invert

Momus

How to spot an invert  
Amongst the vertebrates:

Good grooming  
A tidy bedroom  
Never married  
And working in the arts  
A bitchy sense of humour  
Inordinately colourful scarves  
Loose gestures  
A wardrobe full of Helmut Lang  
A dangling limp wrist  
A talent for interior design

He has a taste for Latin poetry of the Silver Age  
Indulges privately on the heath with unknown youths  
In Spartan sports  
And 'the unspeakable vice of the Greeks'

Likes show tunes  
Counts hairdressers amongst his closest friends  
Is umbilically attached to his mother  
He is careful to conceal at all times his real age  
Is always florid, flamboyant, pale and interesting

Too good to be true  
But this could be you
