

## Trouble On The Way

Mona

Almost midnight,  
I see the look in your eyes  
Almost my time,  
come on baby let me take a bite  
And we go slow  
Look to the rythmn of what you know  
Where this gonna go?  
In the shadow?  
Scream for your life baby go go

Ooh we got it all  
Ooh we got it all  
Ooh we got it all  
There's trouble on the way

See your blood dance  
Come baby come baby romance  
Don't be scared just take a chance  
Here's my blah blah blah blah  
Take my hand and  
Come and see me  
Moonlight come in and greet meet  
Oh inside you're screaming  
But now I know you need me

I see you there and  
I know you care  
So I'm standing  
where you see me clearly  
Don't fight  
Baby don't you put up a fight  
Come and just make you mine  
Come in on the moonlight  
Come in on the moonlight  
There's trouble on the way
