

Gold In The Fire

Monarchy

Lets spend the night together
Spend the night in your arms
You've got the red dress on you
I've got the book of charms
Lets make a daring story
Dress up like darlington
We'll be the secret army
And desperately on the run, yeah

Gold in the fire
Gold in the fire
Gold in the fire is you

Your love's stuck in my bones
The light is calling you
Baby just one more dance
Be slow and be true

Lets spend the night together
Spend the night in your arms
Dust the light off my shoulder
You sing a schoolboy song
Lets make you picture perfect
Run around in the rain
Building a magic castle
Escape on an aeroplane

Your love's stuck in my bones
The light is calling you
Baby just one more dance
Be slow and be true

Gold in the fire
Gold in the fire is you
Gold in the fire
Gold in the fire is you

Your love's stuck in my bones
The light is calling you
Baby just one more dance
Be slow and be true
