Gold In The Fire

Lets spend the night together Spend the night in your arms You've got the red dress on you I've got the book of charms Lets make a daring story Dress up like darlington We'll be the secret army And desperately on the run, yeah

Gold in the fire Gold in the fire Gold in the fire is you

Your love's stuck in my bones The light is calling you Baby just one more dance Be slow and be true

Lets spend the night together Spend the night in your arms Dust the light off my shoulder You sing a schoolboy song Lets make you picture perfect Run around in the rain Building a magic castle Escape on an aeroplane

Your love's stuck in my bones The light is calling you Baby just one more dance Be slow and be true

Gold in the fire Gold in the fire is you Gold in the fire Gold in the fire is you

Your love's stuck in my bones The light is calling you Baby just one more dance Be slow and be true
