

# Anchor

Monica

I can't think about the rain  
As the tears fall down your face  
And the clouds won't go away  
A thousand times I fell  
Over and over again  
But you were to lift me up  
And when I couldn't stand  
You were my crotch  
'Cause there is nothing more special than love  
'Cause what we got is more than enough  
We gotta hold on no matter what

Through the rain, through the rain  
Through the waves, through the fog  
Through the storm  
I'll be by your side, right by your side  
I can't let you down, won't let you down  
'Cause I'm your anchor, anchor,  
Anchor, anchor, anchor, anchor

Beside me, you were there to guide me  
Said I could be anything  
Said we can make it through anything  
That closed door, that hurricane  
No matter what, we still remain  
'Cause we've been through worse back to this wall  
When no one was there, I'm the one you can call  
That's why I'm thanking god for you  
'Cause I don't know what I would do without you  
'Cause there is nothing more special than love  
'Cause what we got is more than enough  
We gotta hold on no matter what

Through the rain, through the rain  
Through the waves, through the fog  
Through the storm  
I'll be by your side, right by your side  
I can't let you down, won't let you down  
'Cause I'm your anchor, anchor,  
Anchor, anchor, anchor, anchor

I will be there for you, for you, for you  
That's what's a friend's supposed to do  
For you, for you  
In your darkest times I help you see  
That's when you'll find your faith and love  
In the middle of the storm  
I will be there!

Through the rain, through the rain  
Through the waves, through the fog  
Through the storm  
I'll be by your side, right by your side  
I can't let you down, won't let you down  
'Cause I'm your anchor, anchor,  
Anchor, anchor, anchor, anchor
