

Cross the Room

Monica

See ya from across the room

It's Friday night and
I'm going to a party
With my man, to dance
As soon as we get in
He is lost with his friends and
I'm there, in a trance

I can tell that someone's looking at me
And I didn't come here by myself
But he left me here at someone else's feet
So it must mean he didn't care
I'm goin' on

See you from across the room
Like you wanna know me
If you wanna make a move
Meet me on the dance floor
Though I'm here with someone else
He's not what I'm looking for
Instead I've seen him 'cross the room
Meet me on the dance floor

As the night goes on
Each dance makes me wonder
What is on, your mind
More than a dance as you pull
Up to me it feels, alright

I can tell that someone's looking at me
And I didn't come here by myself
But he left me here at someone else's feet
So it must mean he didn't care
I'm goin' on

See you from across the room
Like you wanna know me
If you wanna make a move
Meet me on the dance floor
Though I'm here with someone else
He's not what I'm looking for
Instead I've seen him 'cross the room
Meet me on the dance floor
(2x)

Let me know what you wanna do
Can't you tell that I'm missing you
Let me know that you're right on time
Cause I'm lookin for someone else tonight

See you from across the room
Like you wanna know me
If you wanna make a move
Meet me on the dance floor
Though I'm here with someone else
He's not what I'm looking for

Instead I've seen him 'cross the room
Meet me on the dance floor
(2x)

Meet me on the dance floor (3x)
