

Whatever you got I can get it,
We matching got keys to the city,
Look at this house that we building,
Together we always right.
You know you the one on my mind,
Cause your hustle is always right,
Can't believe the match we made,
Together we always right.

Ohhhh, oh, this isn't made up,
Everyone's searching for love like ours baby,
The power we make up,
Brings the best out of us

I think I'm going deep,
So so deep in love,
I think I'm going deep,
Boy you going deep,
Deep deep deep in love,
Cause no one had ever told me that together we'd be right
I think I'm going deep
Deep deep deep
So deep in love

I know they gon ask how I did it
Just five months got a ring on my finger
I turned him into a believer
A good woman can change your life
Together we keeping a balance
But saying the things that matter
Cause still I be up in that kitchen
after your practice cooking you all of your favorite shit,
You got a taste of your favorite
Boy we ain't nothing to play with

This isn't made up
Everyone's searching for love like us
The power we make up
Brings the best out of us

I think I'm going deep
So so deep in love
I think I'm going deep
Boy you're going deep
Deep deep deep in love
Cause no one had ever told me that together we'd be right
I think I'm going deep
Deep deep deep
I'm so deep in love
