

All The Things

Monkey Business

Only thing that you really need
And the one that you want to keep
Is me I know
All alone you will never breathe
Without me you can never see
The light I know
Be still
And we can do more than fantasize
Growing
A little spark which is hope for us
Whenever we unite
We make the world so bright
Little chance
And the cinders dance
We have no other commitments
Yeah
I know you are ready for me
I know you will always be
Only thing that you really need...
I am holding the master key
To you future and destiny
Tonight
Night chill
Is only good till you realize
Until
We unite there's no chance for us
Whenever we unite...
I know you are ready for me
Doing all right doing all right
Burning
I know you will always be
Burning through the ceiling
