

Boner

Monkey Business

I will put you ten feet underground
Make sure that no traces will be found

Here is the final day
I only want to say
You got to be down

I cannot go to town
When you are stickin' around
You got to be down

You are my single friend
No reason to pretend
You got to be down
Every night I feel on fire

...stop persecuting me
...torture me endlessly
...that's your reality
..you are nothing now to me

I wasted many years
And shed a lot of tears
You got to be down

I cannot keep you in
Punishment for my sin
You got to be down

My blood is boiling now
I'm gonna teach you how
You got to be down
Never tell me I'm a clown

...tell you how I feel
...this time it is for real
...you simply make me ill
...what a bitter pill oh baby

My head is clear
And I feel real free
At this moment
Call me a steer
I can shake my feet
What a moment
