Monkey Business

I'm a deamon, I'm lover, I'll anything
I'm a warning from your mother
I'm a pagan
I'm a wild wind in the summer
I'm a hurricane
I'm the wild one, I'm the other
I control your life
live like there's no tomorrow
free
remember that there most likely will be

grab the devil by the horns
let's play, you wanna!
don't let him get away with murder
greb the devil by the horns
let's prey, you wanna!
watch yourself
don't let him get away with murder

you might meet me on a bad night
on a good one too
don't ignore me
thet's a bad fight
one you're bound to lose
I'm a bad hand
I'm a good hand
I can win your game
I'm a python in an ashtray
I'm eternal flame

I ain't messing with your spirit
I ain't screwing with your soul
you don't listen to my warning
you might end up in a hole
live like there's no tomorrow
free
remember that there most likely will be
