

Now I'm Here

Monkey Business

Now I am here
Freely enjoy what you please
Now I am here
And no one would notice
Now I am here
Opening my salad bar
Now I am here
I know the fruit you're looking for
It's all like you're dreaming
It's all that you dream about
It's all like you're dreaming
It's all that you dream about
And now I am here
I'll never listen to the snake again
I know he lied
But his voice can really do your head in
Now I am here
Every day is not a test
Have no fear
To get a bit naughty
Now I am here
Trying only to get by
Have no fear
There is no time for feeling bad
It's all like you're dreaming
It's all that you dream about
It's all like you're dreaming
It's all that you dream about
And now I am here
Now nothing will come easily
The serpent lied
And his voice can really do your head in
