

## Save The Robots

## Monkey Business

Just save the robots  
Save it  
Just save the world

Welcome to Wonderland  
and call me Bob  
You see me on your screens  
The smile is never fading  
And if you wait a while  
as the new message is loading  
Then you will understand  
all the good reasons to buy

Let's get some action started  
Just save the robots  
It is time to start the fight  
Just save the world  
No other way to get around it  
We gonna go make it right

And then it all goes mute  
Because the line is down  
Someone just cut the juice  
and all the robots will starve  
Who takes the orders now  
and who will call to catch the bonus  
With all the plug-in brains  
and teasers stuck in the line

Let's get some action started  
Just save the robots  
It is time to start the fight  
Just save the world  
No other way to get around it  
We gonna go make it right
