

## Gothic Queen

Mono Inc.

Come cover me with comfort and keep watch when I sleep  
Don't ask me for my causes  
Still waters run deep  
This overwhelming sadness and this everlasting harm  
Won't have a chance to catch me as I rest in your arms

My gothic queen she said  
Kill me with love  
My gothic queen she said  
I won't survive this night  
Before the break of day  
Fill me with love  
My gothic queen she said  
Love me till I die

Lead me into temptation  
I didn't come to resist  
Give healing for this bleeding heart  
I want it like this  
This overwhelming torture and this everlasting fear  
Won't have the chance to break me 'cause I'm strong when I'm here

My gothic queen she said  
Kill me with love  
My gothic queen she said  
I won't survive this night  
Before the break of day  
Fill me with love  
My gothic queen she said  
Love me till I die

Give healing for this bleeding heart  
Give healing for this bleeding heart of mine  
Give healing for this bleeding heart  
Give healing for this heart you broke tonight  
Give healing for this bleeding heart  
I love you was the very last she said
