```
Don't tell me what it means to bet the madman Don't tell me how it feels to be so hurt Don't tell me what it takes to lead an empire (as I know) And I'll keep for me how life looks with your face down in the dirt On planet shame
```

```
Don't tell me how it feels to be forgiven
Don't tell me what it means to be so blessed
Don't tell me how I'll die and get to heaven (as I won't)
And I'll keep for me how love feels once you had it with
the best
On planet shame
No more tears will blur the sun
```
