

Somewhere else than here

Mono Inc.

She's got the sway
She's got the fun
She's got the smile and the angel face
She's got the sun

No, I don't feel warm at all

She's got the blaze
She's got the ken
She's got the strength and anyway
She's got the plan

No, I don't feel led at all
No, I don't feel led

If this is love
Come on slay me
If this is love
I would rather not be here
If this is life
It ain't worth the tears we cry
To suffer want
To suffocate until we die
To suffocate until we die

She's got the tricks
She's got the crown
She's got my faith and my belief
And she lets me down

No, I don't feel caught at all
No, I don't feel caught

If this is love
Come on slay me
If this is love
Only one romance
Only one gun
Only one bullet
Only one... Only one letdown
The first and the last
Only one...

If this is love
I would rather be somewhere else than here
It ain't worth the tears we cry until we die
I would rather be somewhere else than here
I aint' worth to suffer want for all your life
