

## Butt Butt

Monrose

Put on your special boots,  
d-d-dance the night away.  
Put on your special boots,  
d-d-dance the night away.

You've got your soldiers in your pack  
Feel the beat in the track  
Put the groove in your back  
And move your butt-butt up and down

You need to sly in your step  
It's cursios, don't forget,  
Or you get stuck  
in the middle of a thing  
you should have known

You better watch out  
if you wanna hang out  
check it up and down  
You better get down

You better watch out (watch out)  
if you wanna hang out (hang out)  
check it up and down  
You better get down

Come on, girls!

The manky-tutor comes to town  
he moves the shit around  
he likes it up and down  
his butt-butt up and down.

(up and down) (4x)

You got the grove, move it around  
They bring the funkiest in town  
They got them also bring you down  
Hey, move their butt-butt up and down

So strip your ass  
and shake it  
And show'em you can take it  
Don't get stuck  
in the middle of a thing  
you should've known...

You better watch out  
if you wanna hang out  
check it up and down  
You better get down

he moves the shit around  
he likes it up and down  
his butt-butt up and down.
