

Strike the Match

Monrose

Pretty baby with the blue jeans on
You've been starin at me all night long
I know you want it
And you know it's wrong
But you don't worry about a thing do ya?

I feel you sweating me from over there
I see the girl your with
But you don't care
Acting like I'm shy
But boy you best beware
I can light your match and start a fire in here

I know you want it
I know you need it
And how I'm feeling
I really really really wanna
Strike the match
Strike strike the match
Strike the match
Strike strike the match

...

I know you want it
I know you need it
And how I'm feeling
I really really really wanna
Strike the match
Strike strike the match
Strike the match
Strike strike your..

Now I don't mind if we doecee doe
Do a little dance to service your ego
But I aint tryin to take it out that door
You gotta tell your girl to leave.. oh yeah
Don't mean to interrupt a perfect date
But I need a man who only spins one plate
Flames are getting higher
And they just won't wait
Boy I know you're thirsty come and get your milkshake

I know you want it
I know you need it
And how I'm feeling
I really really really wanna
Strike the match
Strike strike the match
Strike the match
Strike strike the match

...

I know you want it
I know you need it
And how I'm feeling
I really really really wanna
Strike the match
Strike strike the match
Strike the match

Strike strike your..

Come on, yeah
The match
Strike the match, strike it!
The match
Strike the match
The match
Strike the match, strike it!
The match
Strike the match

I know you want it
I know you need it
And how I'm feeling
I really really really wanna
Strike the match
Strike strike the match
Strike the match
Strike strike the match

...

I know you want it
I know you need it
And how I'm feeling
I really really really wanna
Strike the match
