

# What They Want

Monrose

I enter my mind and try to delve  
Into the thoughts I felt I knew so well  
Seem to get lost  
Patterns corrupt  
Tainted, and now I don't know where I stand

I feel misunderstood  
I can't get the message right  
Maybe I should trust  
But will it rectify  
The troubles that I have are interfering with my life  
Now I'm bout to cross the invisible line

Who's right  
My life (it's my life my life)  
Through time  
I'll fight (it's my life my life)

I ain't gonna say what they want what they want  
People always say what they want  
Never ending up with what they need  
It's not like me  
People always say what they want  
I never get a chance to speak  
They think I'm weak  
People always say what they want  
Always find a way to hate  
What big mistake  
I ain't gonna say what they want what they want  
I ain't gonna say what they want what they want

I'm willing to fall as long as I know  
That's it's due to my own decisions  
Don't have a say locked and away  
Yes it's me whose fronting the picture

There was nothing worse than to feel so honoured like  
If they put me worse than I wouldn't live alive  
I ain't gonna lose if I wanna move on  
Tell me if you're with me or you better be gone

Who's right  
My life (it's my life my life)  
Through time  
I'll fight (it's my life my life)

I ain't gonna say what they want what they want  
People always say what they want  
Never ending up with what they need  
It's not like me  
People always say what they want  
I never get a chance to speak  
They think I'm weak  
People always say what they want  
Always find a way to hate  
What big mistake  
I ain't gonna say what they want what they want

I ain't gonna say what they want what they want

Picking myself up off the ground  
You think I'm lost but now I'm found  
I can still accept your help  
I'm stronger now than I've ever felt

I ain't gonna say what they want what they want  
People always say what they want  
Never ending up with what they need  
It's not like me  
People always say what they want  
I never get a chance to speak  
They think I'm weak  
People always say what they want  
Always find a way to hate  
What big mistake  
I ain't gonna say what they want what they want  
I ain't gonna say what they want what they want

I ain't gonna say what they want what they want  
People always say what they want  
Never ending up with what they need  
It's not like me  
People always say what they want  
I never get a chance to speak  
They think I'm weak  
People always say what they want  
Always find a way to hate  
What big mistake  
I ain't gonna say what they want what they want  
I ain't gonna say what they want what they want
