

## Why Not Us

Monrose

When we first met you said it's complicated take it slow  
Deeper then water goes the more you wanna dip your toe  
I couldn't get enough I wanted you right there and then  
Ignoring all the signs I thought that you and I were cool  
Said I was beautiful you put me on a pedestal  
I would do anything to get back to those days again

Don't know what's wrong  
Want to stay  
In your arms

If two people can have it all  
Live the dream and break the rules  
Tell me, why not us?  
If to people can fall in love  
Destiny should be enough  
So tell me, why not us?

If this ain't right what are we fighting for?  
Like two worlds at war  
What the heart beats for is love  
Turns anything to dust, oh

We're out for dinner and I notice you don't look my way  
Remember when you used to hang on every word I say  
And comlement me on a dress I would choos to wear

Don't know what's wrong  
Want to stay  
In your arms

If two people can have it all  
Live the dream and break the rules  
Tell me, why not us?  
If to people can fall in love  
Destiny should be enough  
So tell me, why not us?

If two people can have it all  
Live the dream and break the rules  
Tell me, why not us?  
If to people can fall in love  
Destiny should be enough  
So tell me, why not us?
