Blow Your Mind

Monster Magnet

Mister, have you tickled the witness He couldn't catch his breath in the storm Man, you've got to love your position You're feeding baby food to the whores I said, "My, my, my" said the spider to the fly "You want a little pee in your cup?" I said, "Wait, wait, wait, there's a package at the gate You'd be lucky if that fucker blew up"

Now did you say, that you're cool when you're livin' this way, yeah If you got no soul, boy, you better stick it down that hole, yeah Now will you ride, with an angel by your side? Or will you just completely blow your mind?

Sell it to a new generation You're kicking off your space and your time You got some bones in your closet And the time is right And that's the way your spirit dies Your mind's for the quakin' Your body's for the shakin' Your soul's for the makin' And your money's for the takin'

Now did you say, that you're cool when your dividends pay, yeah If you got no soul, boy, you better stick it down that hole, yeah Now will you ride, with an angel by your side? Or will you just completely blow your mind?

Gotta do it hard like a monkey Nothing's gonna get in your way Jesus, could you fry me an egg now? Baby's gotta something to say

Now I'm just a man, and I trust in my own two hands If you got no soul, boy, you better, stick it down that hole, yeah Now will you ride, with the angels by your side? Or will you just completely blow your mind?

Now did you say, that you're cool when you're livin' this way, yeah If you got no soul, boy, you better stick it down that hole, yeah Now will you ride, with an angel by your side? Or will you just completely blow your... Will you just completely blow your... Will you just completely blow your mind?
