

Too Bad

Monster Magnet

Too bad you couldn't take the fun
That life gives you away for free
I know you gotta blame someone
So it might as well be me

I learned a long time ago
That you gotta shake hands with pain
Too bad the only thing you learned was
A million ways to complain

Oh well, we've gone the mile
You forgot how to smile
Too bad I gotta say
Don't go away mad, just go away

Last night I had a crazy dream
That I was playing on a real cool team
The sound was just alright
And I was scratching on a learning tree

Drink alone and pissin' and moaning
That just ain't my style
Too bad you are such a pain in the ass
That you never had a chance at all

Oh well, we've gone the mile
You forgot how to smile
Too bad I gotta say
Don't go away mad, just go away

Oh well, we've gone the mile
You forgot how to smile
Too bad I gotta say
Don't go away mad, just go away

Too bad
