

You're Alive

Monster Magnet

You're alive, you're alive, baby, you're so alive
You're alive, you're alive, baby, you're so alive
You're alive, you're alive, baby, you're so alive
You're alive, you're alive, baby, you're so alive

Oh, baby, when you dream at night, you won't still feel
the slave

Just so you know right now, I put the candles on your
birthday cake

And when you're hanging upside down I do my best to
keep you hypnotized

I try to make you understand what makes the crazy
circles in my eyes

You're alive, you're alive, baby, you're so alive
You're alive, you're alive, baby, you're so alive
You're alive, you're alive, baby, you're so alive
You're alive, you're alive, baby, you're so alive

Goddamn, life is good and nature is a wonderful thing
The sweet sight of you huffin' and puffin' is enough to
make a birdie sing

You don't gotta understand my love, but I'll tell you
if you wanna know

I got an eye for miracles baby, when I see one I don't
wanna let go

You're alive, you're alive, baby, you're so alive
You're alive, you're alive, baby, you're so alive
You're alive, you're alive, baby, you're so alive
You're alive, you're alive, baby, you're so alive
You're alive, you're alive, baby, you're so alive
You're alive, you're alive, baby, you're so alive
You're alive, you're alive, baby, you're so alive
You're alive, you're alive, baby, you're so alive

You're alive, you're alive, baby, you're so alive
You're alive, you're alive, baby, you're so alive
You're alive, you're alive, baby, you're so alive
You're alive, you're alive, baby, you're so alive
You're alive, you're alive, baby, you're so alive
You're alive, you're alive, baby, you're so alive
You're alive, you're alive, baby, you're so alive
You're alive, you're alive, baby, you're so alive
