

## The Hangman

Monster

Tell me how can you sleep  
And how can you relax  
Tell me what's in your dreams,  
All those scenes from the past  
Tell me if you forgot  
What you did, what you said  
'Cause I know that they can't forget you  
But I'm here just to make sure  
That you will never rest in peace  
Every night, you know, I'll be your torment  
As long as you live

All the people that trusted  
In what you used to say  
Led their lives to an end  
They have learned too late  
As they looked in your eyes  
While you slice them 'til death  
They could see a cold smile on your face

But I'm here just to make sure  
That they can now rest in peace  
Every night, you know, I'll be your nightmare  
As long as you live

Try to fool yourself, to fool everyone else  
But I tell you there's no way that you can fool me  
Try to sleep at night, then I'll prove I'm right  
'Cause I will be there, I'm The Hangman

It's late at night, but you can't sleep  
It's getting hard for you to breathe  
You close your eyes but you still see me  
I hope you live a hundred years  
'Cause The Hangman like it slowly

Yes, I'm The Hangman, The Hangman...  
Sweet dreams!!!
