Fragments Of Resolution

Monstrosity

Searching through this violent haze Contracted by illusions This mesmerizing dream To find fragments of resolution

The eyes of eternity
Focus on the myriad forms
As the minds of the conscious crumble
To the weakness their truth must conform

Fragments... of resolution Fragments... of resolution

Breathing in this misery Destroying absolution Victim of a hidden past Resounding with execution

Motionless are the serpent's eyes
Dripping with your conclusion
Hanging on by a thread of life
Ties are cut with resolution's... knife
