

# The Bloodline Horror

## Monstrosity

Lies... the keeper unto me  
The only path I've chosen yet I have now converged  
Writhe... in tortured ecstasy  
No escape from this grasp

I've waited unconscious for thousands of years  
Lurking in the shadows of your darkest tears

Dawn... the bloodline horror defines you  
The dying bleed and now I feel  
Selfishness takes my right to life  
A call from the source of infamy

Cries... from way beyond the deep  
Lost in the caverns of eternity I am now exposed  
Born from darkest seeds of hate  
With contempt I destroy

I've waited unconscious for thousands of years  
Lurking in the shadows of your darkest tears

Dawn... the bloodline horror defines you  
The dying bleed and now I feel  
Selfishness takes my right to life  
A call from the source of infamy

Lies... that feed the fire  
Aligned... with darkness in you  
Fight... this hate prophets you  
Desire... you search forever

Lies... the keeper unto me  
The only path I've chosen yet I have now converged  
Writhe... in tortured Ecstasy  
No escape from this grasp

I've waited unconscious for thousands of years  
Lurking in the shadows of your darkest tears

Dawn... the bloodline horror defines you  
The dying bleed and now I feel  
Selfishness takes my right to life  
A call from the source of infamy
