

Down With You

Montell Jordan

All this time I've been with you
You should know by now am down with you

Girl there you go again constantly questioning
Where I'm gone, where I've been and where I'm coming from, yeah
Is that so hard to see you mean the world to me
Just because I'm hanging out don't mean that I'm playing around
It's all about you

All this time I've been with you
You should know by now am down with you

You're like a precious stone, I'll never you leave you alone
Word is bond, you turn me on so, don't be so possessive baby
I'd be a fool to risk losing a love like this
No I'm not a fraud but you're the only one, you're the only one

All this time I've been with you
You should know by now am down with you

Girl I'm down with you
(Girl I'm down with you)
Oh
(And if you don't know by now)
If you don't know
(You will never know, fair is never)

Never, never
(No one else but you)
I said there's no one else but you
(I gotta show you somehow)
Show you somehow
Since day one it's been you

All this time I've been with you
You should know by now am down with you

All this time I've been with you
You should know by now am down with you

All this time I've been with you
You should know by now am down with you
